The distinguishing feature of the Gränsfors Hand Hatchet is its short handle relative to the size of its head. It is extremely practical to carry in your rucksack on forest walks, or to keep in the car as it takes up very little space. The shape of the sheath, which covers the edge and the top part of the poll, also stops the axe head cutting into your rucksack. The Hand Hatchet makes an excellent scouting and camping axe. Despite its short handle, the axe can be used to fell small trees. It is also great for limbing and for splitting kindling and firewood. The axe is delivered with a sheath.

Hultafors Hults Bruk Ågelsjön Mini Hatchet 841760

Axe head is hand forged made from Swedish quality steel in the forge at Hults Bruk. The forging tradition goes as far back as 1697. The head is struck 40–60 times to increase density and durability. Cutting edge has a convex grind. The axe is supplied sharpened, polished and ready to use, in a good quality thick leather axe sheath.
